CONTENTS

No. 1, January 1, 1962

PAGE

Epstein, M. A. Observations on the fine structure of mature herpes simplex virus and on the composition of its nucleoid. Plates 1 to 5 1

Broberger, Ove, and Perlmann, Peter. Demonstration of an epithelial antigen in colon by means of fluorescent antibodies from children with ulcerative colitis. Plates 6 and 7 13

Kaiser, Hans Klaus, and Wood, W. Barry, Jr. Studies on the pathogenesis of fever. IX. The production of endogenous pyrogen by polymorphonuclear leucocytes 27

Kaiser, Hans Klaus, and Wood, W. Barry, Jr. Studies on the pathogenesis of fever. X. The effect of certain enzyme inhibitors on the production and activity of leucocytic pyrogen 37

Krause, Richard M., and McCarty, Maclyn. Studies on the chemical structure of the streptococcal cell wall. II. The composition of Group C cell walls and chemical basis for serologic specificity of the carbohydrate moiety 49

Lachmann, P. J., Müller-Eberhard, H. J., Kunkel, H. G., and Paronetto, F. The localization of *in vivo* bound complement in tissue sections. Plates 8 to 11 63

Parker, W. Carey, and Bearn, Alexander G. Studies on the transferrins of adult serum, cord serum, and cerebrospinal fluid. The effect of neuraminidase 83

Sellers, Margret I., and Lavender, John F. Studies on the interrelationship between the blood-brain barrier and entry of viruses into the central nervous system. I. The effect of carbon dioxide on Type II poliovirus infection in mice. Plates 12 to 15 107

Michael, J. Gabriel, Whitby, James L., and Landy, Maurice. Studies on natural antibodies to Gram-negative bacteria 131

Clark, Irwin, and Bassett, C. Andrew L. The amelioration of hypervitaminosis D in rats with vitamin A. Plates 16 to 19 147

Lee, Johanna M., and Schneider, Howard A. Critical relationships between constituents of the antigen-adjuvant emulsion affecting experimental allergic encephalomyelitis in a completely susceptible mouse genotype. Plates 20 and 21 157

Shaw, Cheng-Mei, Alvord, Ellsworth C., Jr., Fahlberg, Willson J., and Kies, Marian W. Adjuvant-antigen relationships in the production of experimental "allergic" encephalomyelitis in the guinea pig 169

PAGE

HABEL, KARL. Immunological determinants of polyoma virus oncogenesis.. 181

BENEDICT, ALBERT A., BROWN, RONALD J., and AYENGAR, RAJALAKSHMI. Physical properties of antibody to bovine serum albumin as demonstrated by hemagglutination..... 195

NOSSAL, G. J. V., and MÄKELÄ, O. Autoradiographic studies on the immune response. I. The kinetics of plasma cell proliferation. Plate 22..... 209

MÄKELÄ, O., and NOSSAL, G. J. V. Autoradiographic studies on the immune response. II. Deoxyribonucleic acid synthesis amongst single antibody-producing cells. Plate 23..... 231

DOUGHERTY, ROBERT M., and MORGAN, HERBERT R. Comparative studies in Rous sarcoma with virus, tumor cells, and chick embryo cells transformed *in vitro* by virus. II. Response of normal and immunized chicks..... 245

MCCLUSKEY, ROBERT T., MILLER, FREDERICK, and BENACERRAF, BARUJ. Sensitization to denatured autologous gamma globulin..... 253

EASTON, JOHN M., GOLDBERG, BURTON, and GREEN, HOWARD. Immune cytolysis: electron microscopic localization of cellular antigens with ferritin-antibody conjugates. Plates 24 to 31..... 275

No. 2, FEBRUARY 1, 1962

MIDGLEY, A. R., JR., and PIERCE, G. B., JR. Immunohistochemical localization of human chorionic gonadotropin. Plates 32 and 33..... 289

MORSE, STEPHEN I. Isolation and properties of a surface antigen of *Staphylococcus aureus*..... 295

KROOTH, ROBERT S., HOWELL, R. RODNEY, and HAMILTON, HOWARD B. Properties of acatalasic cells growing *in vitro*. Plate 34..... 313

MUELLER, PETER S., KIES, MARIAN W., ALVORD, ELLSWORTH C., JR., and SHAW, CHENG-MEI. Prevention of experimental allergic encephalomyelitis (EAE) by vitamin C deprivation..... 329

POTTER, MICHAEL. Plasma cell neoplasia in a single host: a mosaic of different protein-producing cell types. Plates 35 and 36..... 339

MORRIONE, THOMAS G., and SEIFTER, SAM. Alteration in the collagen content of the human uterus during pregnancy and postpartum involution..... 357

GERSHON, M[illegible]AEL D., and ROSS, LEONARD L. Studies on the relationship of 5-hydroxytryptamine and the enterochromaffin cell to anaphylactic shock in mice. Plate 37..... 367

SANFORD, JAY P., HUNTER, BETTY W., and SOUDA, LONA L. The role of immunity in the pathogenesis of experimental hematogenous pyelonephritis..... 383

PAGE

ALLEN, WILLIAM PETER. Immunity against tularemia: passive protection of mice by transfer of immune tissues 411

HESS, EVELYN V., ASHWORTH, CHARLES T., and ZIFF, MORRIS. Transfer of an autoimmune nephrosis in the rat by means of lymph node cells. Plates 38 to 44 421

TERASAKI, PAUL I., and CHAMBERLAIN, CHARLES C. Destruction of epidermal cells *in vitro* by autologous serum from normal animals 439

No. 3, MARCH 1, 1962

BOYDEN, STEPHEN. The chemotactic effect of mixtures of antibody and antigen on polymorphonuclear leucocytes 453

GOLDFISCHER, SIDNEY, ARIAS, IRWIN M., ESSNER, EDWARD, and NOVIKOFF, ALEX B. Cytochemical and electron microscopic studies of rat liver with reduced capacity to transport conjugated bilirubin. Plates 45 to 50 467

FONG, JACOB, CHIN, DENNIS, and ELBERG, SANFORD S. Studies on tubercle bacillus–histiocyte relationship. V. Passive transfer of cellular resistance 475

LECCE, JAMES G., and REEP, BRYAN R. *Escherichia coli* associated with colostrum-free neonatal pigs raised in isolation 491

GLASGOW, LOWELL A., and HABEL, KARL. The role of interferon in vaccinia virus infection of mouse embryo tissue culture 503

FRIESEN, HENRY, IRIE, MINORU, and BARRETT, RICHARD J. An immunologic study of two metabolically active peptides from the anterior pituitary gland 513

MÖLLER, ERNA, and MÖLLER, GÖRAN. Quantitative studies of the sensitivity of normal and neoplastic mouse cells to the cytotoxic action of isoantibodies 527

CLEMMONS, J. J., and JACKSON, E. B., JR. Inhibition of cytochrome oxidase by aminoacetonitrile 555

CONDIE, RICHARD M., STAAB, EDWARD V., and GOOD, ROBERT A. Studies on the biologic relationship of endotoxin and other toxic proteins. I. Comparison of the properties of snake venom and endotoxin. Plate 51 .. 563

STAAB, EDWARD V., CONDIE, RICHARD M., and GOOD, ROBERT A. Studies on the biologic relationship of endotoxin and other toxic proteins. II. Enhancement of susceptibility to snake venom by endotoxin 579

OPIE, EUGENE L. On the relation of necrosis and inflammation to denaturation of proteins. Plates 52 to 54 597

PALMERIO, C., MING, S. C., FRANK, E., and FINE, J. The role of the sympathetic nervous system in the generalized Shwartzman reaction. Plates 55 and 56 609

PAGE

CARPENTER, CHARLES M., FUKUDA, MORIMICHI, and HEISKELL, CHARLES L. Cytometric assay of toxicity of *Brucella* antigens for sensitized and non-sensitized cells from the guinea pig. Plates 57 to 59 613

FAHEY, J. L., and ASKONAS, BRIGITTE, A. Enzymatically produced subunits of proteins formed by plasma cells in mice. I. γ-Globulin and γ-myeloma proteins 623

ASKONAS, BRIGITTE A., and FAHEY, J. L. Enzymatically produced subunits of proteins formed by plasma cells in mice. II. β_{2A}-Myeloma proteins and Bence Jones protein 641

UHR, JONATHAN W., FINKELSTEIN, MARTIN S., and BAUMANN, JOYCE B. Antibody formation. III. The primary and secondary antibody responses to bacteriophage ϕX 174 in guinea pigs 655

GREY, HOWARD M. Studies on the binding between streptococcal M protein and antibody 671

No. 4, APRIL 1, 1962

UHR, JONATHAN W. The effect of bacterial endotoxin on the newborn guinea pig 685

DONALDSON, VIRGINIA H., and RATNOFF, OSCAR D. The enhancement of chloroform-induced plasma proteolytic activity by epsilon aminocaproic acid 695

SALVIN, S. B., GREGG, M. B., and SMITH, R. F. Hypersensitivity in newborn guinea pigs 707

WITZLEBEN, C. L., AND CHAFFEY, N. J. A study of iron-induced liver damage 723

JENKIN, CHARLES R. An antigenic basis for virulence in strains of *Salmonella typhimurium* 731

LERNER, A. MARTIN, LEVIN, HOWARD S., and FINLAND, MAXWELL. Age and susceptibility of mice to Coxsackie A viruses. Plate 60 745

WALLIS, CRAIG, MELNICK, JOSEPH L., FERRY, GEORGE D., and WIMBERLY, IRA L. An aluminum marker for the differentiation and separation of virulent and attenuated polioviruses 763

LAATSCH, ROBERT H., KIES, MARIAN W., GORDON, SPENCER, and ALVORD, ELLSWORTH C., JR. The encephalomyelitic activity of myelin isolated by ultracentrifugation. Plates 61 to 64 777

PARKER, CHARLES W., KERN, MILTON, and EISEN, HERMAN N. Polyfunctional dinitrophenyl haptens as reagents for elicitation of immediate type allergic skin responses 789

PARKER, CHARLES W., DEWECK, ALAIN L., KERN, MILTON, and EISEN, HERMAN N. The preparation and some properties of penicillenic acid derivatives relevant to penicillin hypersensitivity 803

PAGE

PARKER, CHARLES W., SHAPIRO, JACK, KERN, MILTON, and EISEN, HERMAN N. Hypersensitivity to penicillenic acid derivatives in human beings with penicillin allergy 821

AHLSTRÖM, C. G., and FORSBY, NILS. Sarcomas in hamsters after injection with Rous chicken tumor material. Plates 65 to 69 839

CHIBA, C., WOLF, P. L., GUDBJARNASON, S., CHRYSOHOU, A., RAMOS, H., PEARSON, B., and BING, R. J. Studies on the transplanted heart. Its metabolism and histology. Plates 70 to 72 853

PARKS, JAMES J., LEIBOWITZ, HOWARD M. I., and MAUMENEE, A. EDWARD. A transient stage of suspected delayed sensitivity during the early induction phase of immediate corneal sensitivity. Plates 73 to 75 867

No. 5, MAY 1, 1962

ALLISON, MARVIN J., ZAPPASODI, PETER, and LURIE, MAX B. The correlation of a biphasic metabolic response with a biphasic response in resistance to tuberculosis in rabbits. Plates 76 to 79 881

MELLORS, ROBERT C., and BRZOSKO, WITOLD J. Studies in molecular pathology. I. Localization and pathogenic role of heterologous immune complexes. Plates 80 to 88 891

HULL, R. N., CHERRY, W. R., and TRITCH, O. J. Growth characteristics of monkey kidney cell strains LLC-MK_1, LLC-MK_2, and LLC-MK_2 (NCTC-3196) and their utility in virus research. Plate 89 903

GERMUTH, FREDERICK G., JR., MAUMENEE, A. EDWARD, SENTERFIT, LAURENCE B., and POLLACK, ABOU D. Immunohistologic studies on antigen-antibody reactions in the avascular cornea. I. Reactions in rabbits actively sensitized to foreign protein. Plates 90 and 91 919

ANDRES, GIUSEPPE A., MORGAN, COUNCILMAN, HSU, KONRAD C., RIFKIND, RICHARD A., and SEEGAL, BEATRICE C. Electron microscopic studies of experimental nephritis with ferritin-conjugated antibody. The basement membranes and cisternae of visceral epithelial cells in nephritic rat glomeruli. Plates 92 to 101 929

CHANG, R. SHIHMAN, and HUMES, MARYELLEN. The biological, immunological, and physicochemical characterization of a transmissible agent capable of inducing deoxyribonucleic acid and thymine degradation in cultured human cells. Plates 102 and 103 937

CHANG, R. SHIHMAN, GEYER, ROBERT P., and ANDRUS, STEPHEN B. A lipogenic toxin released through the interaction of a new cytopathic agent (lipovirus) and cultured human cells. Plates 104 and 105 959

CHANG, R. SHIHMAN, and LIEPINS, H. A study of the mechanisms of deoxyribonucleic acid and thymine degradation in cultured human cells infected with a lipovirus 967

PAGE

SZULMAN, ARON E. The histological distribution of the blood group substances in man as disclosed by immunofluorescence. II. The H antigen and its relation to A and B antigens. Plates 106 to 110 977

PORTER, K. A., and COOPER, E. H. Transformation of adult allogeneic small lymphocytes after transfusion into newborn rats. Plates 111 to 113 997

GRAYSTON, J. THOMAS, WANG, SAN-PIN, YANG, YEN-FEI, and WOOLRIDGE, ROBERT L. The effect of trachoma virus vaccine on the course of experimental trachoma infection in blind human volunteers. Plates 114 and 115 1009

BENACERRAF, B., and LEVINE, B. B. Immunological specificity of delayed and immediate hypersensitivity reactions. Plate 116 1023

GELL, P. G. H., and SILVERSTEIN, ARTHUR M. Delayed hypersensitivity to hapten-protein conjugates. I. The effect of carrier protein and site of attachment to hapten 1037

SILVERSTEIN, ARTHUR M., and GELL, P. G. H. Delayed hypersensitivity to hapten-protein conjugates. II. Anti-hapten specificity and the heterogeneity of the delayed response 1053

LEE, LEUNG. Reticuloendothelial clearance of circulating fibrin in the pathogenesis of the generalized Shwartzman reaction. Plates 117 and 118 1065

NAJARIAN, JOHN S., and FELDMAN, JOSEPH D. Passive transfer of transplantation immunity. I. Tritiated lymphoid cells. II. Lymphoid cells in Millipore chambers 1083

No. 6, JUNE 1, 1962

KUMAR, SURENDRA, and LINDORFER, ROBERT K. The characterization of staphylococcal toxins. I. The electrophoretic migration of the alpha hemolytic, dermonecrotic, lethal, and leucocidal activities of crude toxin 1095

KUMAR, SURENDRA, LOKEN, KEITH I., KENYON, ALAN J., and LINDORFER, ROBERT K. The characterization of staphylococcal toxins. II. The isolation and characterization of a homogeneous staphylococcal protein possessing alpha hemolytic, dermonecrotic, lethal, and leucocidal activities 1107

MCKAY, DONALD G., and WONG, TING-CHAO. Studies of the generalized Shwartzman reaction produced by diet. I. Pathology. Plates 119 to 121 1117

KAUNITZ, HANS, MALINS, DONALD C., and MCKAY, DONALD G. Studies of the generalized Shwartzman reaction produced by diet. II. Feeding of fractions of oxidized cod liver oil 1127

PAGE

McKay, Donald G., and Wong, Ting-Chao. Studies of the generalized Shwartzman reaction produced by diet. III. Partial prevention by antibiotics 1137

Cruchaud, André, Rosen, Fred S., Craig, John M., Janeway, Charles A., and Gitlin, David. The site of synthesis of the 19S γ-globulins in dysgammaglobulinemia. Plate 122 1141

Schaedler, Russell W., and Dubos, René J. The fecal flora of various strains of mice. Its bearing on their susceptibility to endotoxin. Plate 123 1149

Dubos, René J., and Schaedler, Russell W. The effect of diet on the fecal bacterial flora of mice and on their resistance to infection. Plates 124 and 125 1161

Dahl, Lewis K., Heine, Martha, and Tassinari, Lorraine. Effects of chronic excess salt ingestion. Evidence that genetic factors play an important role in susceptibility to experimental hypertension ... 1173

Papermaster, Ben W., Bradley, S. Gaylen, Watson, Dennis W., and Good, Robert A. Antibody-producing capacity of adult chicken spleen cells in newly hatched chicks. A study of sources of variation in a homologous cell transfer system. Plate 126 1191

Henderson, James S., and Rous, Peyton. The plating of tumor components on the subcutaneous expanses of young mice. Findings with benign and malignant epidermal growths and with mammary carcinomas. Plates 127 to 138 1211

Wardlaw, Alastair C. The complement-dependent bacteriolytic activity of normal human serum. I. The effect of pH and ionic strength and the role of lysozyme 1231

Index to Vol. 115 1251
